# **11TH INTERNATIONALSYMPOSIUM**

ON MUCOPOLYSACCHARIDE AND RELATED DISEASES

**ADELAIDE, SOUTH AUSTRALIA • 23-27 JUNE 2010**

## **HAVE YOU BEEN WATCHING OUR WEBSITE GROW AND CHANGE?**

Mucopolysaccharide & Related Diseases Society Aust. Ltd, Lysosomal Diseases Australia, and Lysosomal Diseases New Zealand warmly invite you to join us in Adelaide 23rd - 27th June 2010, for the 11th International Symposium on Mucopolysaccharide and Related Diseases.

Our scientific and family programmes will be exciting, and relevant with a focus on the areas of newborn screening, prognostics, understanding pathology and therapeutic options. Genuine opportunities for thorough discussion and debate will be a feature of the program.

Adelaide is a city surrounded by parklands, sports fields, a top-class golf course, walking and cycling tracks and beautiful gardens. There's a sense of space. Adelaide's remarkable parklands let the city breathe. Suburban parks, street tree canopies and private gardens make this an urban place that's surprisingly close to nature.

We hope you will hop on down under and join us for five exciting days of cutting edge science, exciting family experiences and an enjoyable cultural experience.

### **GETTING TO ADELAIDE**

Several major airlines fly direct international routes into Adelaide. Delegates may also fly into other Australian major cities and take a short connection flight. The Adelaide International Airport is located just 9 kilometers or a 12 minute transfer from the central business district. Conference delegates are assured a quick, easy and inexpensive journey into the city centre. Adelaide's airport is capable of handling the world's newest generation aircraft, and state of the art immigration, customs and security services. *Please watch the website for additions on Air travel to Australia.*

### **ENTRY TO AUSTRALIA**

All travellers, except New Zealand citizens, must obtain a visa or travel authority before travelling to Australia. For conference delegates, the appropriate visa is a Business (Short Stay) visa, even if some tourism activities are planned for part of the stay in Australia. The Business (Short Stay) visa (subclass 456) allows the bona fide business person to make a visit to Australia of up to three months to conduct business - a conference, negotiation or an exploratory business visit. A single-entry or multiple-entry visa may be issued.

In many countries, you can obtain a Business (Short Stay) visa at the same time you purchase an airline ticket. Ask for a Business Electronic Travel Authority (ETA) for Australia.
